EDUCATION

Noida Institute of Engineering and Technology <i>Bachelor of Technology in Computer Science and Engineering - AIML</i>	2022 - 2026 <i>Greater Noida, UP</i>
Bal Bharati Public School School <i>High School (PCM)</i>	2008 - 2022 <i>Noida, UP</i>

EXPERIENCE

Capgemini <i>Software Engineer Intern</i>	April 2026 – June 2026 <i>Gurugram, Haryana</i>
- Worked on developing interactive Power BI dashboards to analyze business data and generate actionable insights. - Performed data analysis using Python and worked with Oracle Database for querying and managing enterprise data. - Collaborated on a Power BI project involving data cleaning, visualization, KPI tracking, and report automation. Skills: Power BI, Oracle Database, Python, Data Analysis	

TECHNICAL SKILLS

Languages: Python | C++ | HTML/CSS/JS

Frameworks/Libraries: TensorFlow | PyTorch | LangChain | Streamlit | Flask | Fast API | Hugging Face Transformers

Databases: MySQL | MongoDB | Oracle Database

Core Competencies: Analytics | DSA | Machine Learning | Deep Learning | LLMs | AI Agents

Tools: Git | GitHub | Visual Studio Code | Google Colab | Power BI | Claude | Cloudflare

PROJECTS

FileForge Link <i>Media Editing Platform</i>
- Developed an AI-powered web platform integrating multiple productivity tools into a single application. - Built features including PDF summarization, image generation, OCR, speech-to-text, text-to-speech, translation, prompt generation, and document utilities. - Integrated modern AI APIs and designed a clean, user-friendly interface for seamless access to multiple AI services.
Spendify Link <i>Bank Account Management System</i>
- Created a Flask app to automate financial PDF-to-CSV conversion, reducing manual effort by 80%. - Integrated LSTM and ARIMA models for forecasting balances with 90% accuracy.
KarwaanRadio Link <i>Real-Time Interactive Music Platform</i>
- Built a full-stack music platform using React, FastAPI, MongoDB, and WebSockets with 5+ interactive features. - Implemented real-time WebSocket chat and passenger tracking supporting 100+ concurrent users.

ACHIEVEMENTS

Code Burst DSA Competition: Secured 2nd place among 100+ participants in NIET Coding Contest.

LeetCode: 1600+ Contest Rating, solved 500+ Data Structures & Algorithms problems.

GeeksforGeeks: 1800+ Contest Rating, solved 700+ Data Structures & Algorithms problems.
